the Committee suggested that the Lane might be turned towards the 3rd Main Road by means of a cross road

The Health Officer, whose opinion is also submitted, thinks the nuisance complained of by Rao Bahadur Krishna Swami Rao Gothers might be avoided by making the 1st row of houses face the North Road of the Basavangudi Extension. I agree with Mr Karnick and others that if Conservancy lanes made to run at right angles to Basavangudi-North Road, they will no doubt prove a nuisance to the neighbours.

Sanitary Engineer happened to be there this morning and he agreed to set this right by allowing the first row of houses face the 100 Feet Road (North Basavangudi Road) This arrangement will avoid the nuisance and improve the appearance on both sides of the road
